

13th International Symposium on Trichoptera

Białowieża, Poland, 22-27 June 2009

Conveners: prof. Janusz Majecki, dr. Katarzyna Majecka

Department of Experimental Zoology and Evolutionary Biology, University of Łódź,

ul. Banacha 12/16, 90-237 Łódź, Poland

e-mail: tricho9@biol.uni.lodz.pl www.biol.uni.lodz.pl/trichoptera2009 phone: +48-42-635-4492

16 June 2008

Dear Colleagues,

We are pleased to inform you that the arrangements for the 13th International Symposium on Trichoptera are in progress. The co-organizer of the Symposium, the Białowieża National Park, is offering us comprehensive help. The conference hall, hotel, restaurant, and natural history museum (buildings belonging to the Białowieża National Park) are located in a large, old Palace Park (area 50 ha), which is crossed by the Narewka River (light trapping will be possible). The weather should be fine in June and we can expect temperatures between 20°C-25°C.

Programme: Besides lectures and poster sessions, we are planning a one day excursion to the Narew National Park. It will be a good opportunity for nature watching and collecting caddis from some water bodies. We are also organizing a walking trip to the strictly protected area of the Białowieża National Park. For colleagues who do not wish to walk, we offer two horse-drawn carts. Additionally, we are arranging a post-symposium trip to the north-east part of Poland and Lithuania, an area with a large number of rivers and lakes. We are also planning an attractive programme for accompanying persons.

Accommodation: We recommend hotel Iwa in the Palace Park (single room – 120 PLN/person, double room – 60 PLN/person). You can make a reservation through us (please see accommodation forms). This hotel offers good standard and has just been opened after a major renovation. Those who prefer a more luxurious accommodation will be able to find two hotels in the vicinity of the Palace Park (1-2 km): Hotel Żubrówka or Hotel Soplicowo. Please contact these hotels directly following the link available on our main web page.

Meals: Iwa hotel's restaurant - "Restauracja Parkowa", examples of prices of meals - breakfast – 30 PLN, lunch – 25 PLN, dinner - 27 PLN.

Accommodation and meals can be paid by credit card (they do not accept American Express).

Transport: Since there is no international airport close to Białowieża, you have to arrive in Warsaw. When you reach Warsaw (by plane or train) you will take the train from Warszawa Centralna Station to Hajnówka (near Siedlce), or you can take the train to the main town of this area, Białystok, and later a bus from the railway station to Hajnówka (about 86 km). We will be able to pick up participants from Hajnówka to Białowieża (21 km). It might also be possible to organize a bus for participants from Warsaw to Białowieża (distance 250 km). The price of this mode of transportation will depend on the number of participants wishing to use this service. Please let us know if you wish to use this service. You can also reach Białowieża by car.

Registration fee: for participants is 770 PLN (includes proceedings volume) and 500 PLN for accompanying person.

The exchange rate at present is 1 € = 3,50 PLN

For more details, please consult our web site www.biol.uni.lodz.pl/trichoptera2009. You will find there the electronic version of the registration form. It is also possible to register on-line.

We look forward to seeing you in Białowieża.

Janusz Majecki
Katarzyna Majecka

Registration form
Deadline of registration: 15 January 2009
 13th International Symposium on Trichoptera
 Białowieża, Poland, 22-27 June 2009

Abstract

The abstract should be less than 300 words (counting without title and address) prepared according to example. Electronic version of text (Word for Windows) sending by e-mail or on disk is necessary.

EXAMPLE

**Contribution to the biogeography of the *Chaetopteryx villosa* group
(Trichoptera: Limnephilidae)**

Katarzyna MAJECKA¹, Bronisław SZCZĘSNY²

1: University of Łódź, Department of Experimental Zoology and Evolutionary Biology,
Banacha 12/16, 90-237 Łódź, Poland, 2: Institute of Nature Conservation, Polish Academy of
Science, Al. Mickiewicza 33, 31-120 Kraków, POLAND

The problem concerns a taxonomical status of some common taxa belonging to the *Chaetopteryx villosa* group (Limnephilidae) living in Europe. A vast material of adults of *Chaetopteryx villosa*, *C. fusca* and *C. sahlbergi* collected
